

Next Gen Carbon Credits and Projects Masterclass

Wednesday 13 September 2023 – 12.00-5.00pm – ASX, Exchange Square, Sydney

CMI presents the 2023 Pre-Summit Masterclass, hosted by the ASX.

Companies must prepare for the structural transition in Australia's economy to ensure our business remains globally competitive in a carbon-constrained economy. They must build internal expertise and investment frameworks, develop transition plans and where appropriate, integrate market-based mechanisms and carbon crediting strategies.

This class will examine high-integrity market-based approaches that address the increasing urgency and scale, align with decarbonisation and transition approaches, meet new integrity frameworks (both national and international), support informed approaches to co-benefit valuation and benefit sharing.

Practical knowledge outcomes for both supply and demand side actors include:

- Understand 'next gen' method development processes in Australia (proponent-led, integrated methods) and internationally (Core Carbon Principles, Article 6 methods)
- Develop the knowledge base to assist evaluating and purchasing carbon credits in the evolving carbon market
- Gain knowledge on evolving 'high integrity' and due diligence assessments
- Learn about benefit sharing experiences and best practice
- Gain insights on emerging trends and future opportunities

Deep dive into the inner workings of the carbon crediting system both in Australia and internationally with market experts and practical case studies. In doing so, expand your foundational knowledge of the market, and improve your capacity to critically analyse claims, credits and market integrity.

Target audience

The masterclass is relevant for organisations of all sizes and participants from different backgrounds. Target attendees include: executives, economists, policy makers, senior sustainability, carbon and technical managers, lawyers and government agencies.

12.00-12.45pm	Networking Lunch	
MASTERCLASS		
12.45-12.55pm	Welcome and Introduction	John Connor, <i>CEO</i> , Carbon Market Institute Karen Webb, <i>Acting Head Issuer Services</i> , ASX
International Markets		
12.55-1.05pm	Overview of method development in voluntary carbon market, independent crediting frameworks, implications of ICVCM Core Carbon Principles	Tim Pearson, <i>Technical Head, International Projects</i> , GreenCollar
1.05-1.15pm	Discussion & Q&A	
1.15-1.30pm	International Carbon Market developments in Article 6.2 and 6.4 UNFCCC carbon markets	Phillip Eyre, <i>Team Lead Market and Non-Market Support Unit Mitigation Division</i> , UNFCCC
1.30- 1.45pm	Discussion & Q&A	
Domestic Markets		
1.45-2.00pm	Domestic Method Development, implementing ACCU Review, including proposed proponent-led method development	Kate Lea-Perry, <i>Acting Assistant Secretary Carbon Crediting Branch</i> , DCCEEW
2.00 - 2.20pm	Discussion & Q&A	
Benefit Sharing		
2.20 – 2.40pm	Benefit Sharing Case Studies <ul style="list-style-type: none"> South-West Queensland Case Study and benefit sharing principles Indigenous priorities in method development 	Pip Band, <i>Director</i> , Band Consulting Indigenous Carbon Industry Network tbc
2.40-2.55pm	Discussion & Q&A	
2.55-3.25pm	BREAK	
Co-Benefits & Integrity		
3.25-3.40pm	Market Trends, analysis and valuing co-benefits in a stratifying market	Marco Stella, <i>Co-Founder, Head of Carbon and Renewables</i> , CORE Markets
3.40-4.05pm	Engaging with Integrity, Code of Conduct, findings of FY23 audit, linkages between integrity, co-benefits, licensing, regulation, consumer protection and greenwashing	Virginia Malley, <i>Chair, Independent Code Review Panel</i> , Carbon Industry Code of Conduct
4.05-4.15pm	Discussion & Q&A	
Future Methods		
4.15-4.45pm	Future Methods, emerging method case studies <ul style="list-style-type: none"> Integrated Farm Landscape Method Savanna Fire Management 	Megan Surawski, <i>Manager</i> , DCCEEW Nerida Bradley, <i>Chief Operating Officer</i> , GreenCollar Skye Glenday, <i>Co-CEO</i> , Climate Friendly
4.55-4.55pm	Discussion & Q&A	

Reading List

INTERNATIONAL MARKETS

-Overview of Method Development in Voluntary Carbon Market, Independent Crediting Frameworks, and Implications of ICVCM Core Carbon Principles

-International Carbon Market Developments in Article 6.2 and 6.4

Readings:

ICVCM 2023, *Section 2: Core carbon principles*. [Link](#).

UNFCCC 2023, *Article 6.4 mechanism*. [Link](#).

DOMESTIC MARKETS

-Domestic Method Development and Implementing the ACCU Review, Including Proposed Proponent-Led Method Development

Readings:

DCCEEW 2023, *Independent review of Australian carbon credit units: implementation plan*, pp. 12-13. [Link](#).

BENEFIT SHARING

-Benefit Sharing Case Studies

Readings:

ICIN 2020, *Seeking free, prior and informed consent from Indigenous communities for carbon projects: A best practice guide for carbon project developers*. [Link](#).

ICIN 2022, *Mapping the Opportunities for Indigenous Carbon in Australia Identifying opportunities and barriers to Indigenous participation in the Emissions Reduction Fund*. [Link](#).

The Nature Conservancy 2023, *Beyond beneficiaries: Fairer carbon market frameworks*, p. 13. [Link](#).

CO-BENEFITS & INTEGRITY

-Market Trends, Analysis and Valuing Co-Benefits in a Stratifying Market

-Engaging with Integrity

Readings:

Core Markets 2022, *Many markets in one: Valuing risk, opportunity and co-benefits in the ACCU market*. [Link](#).

CMI 2022, *Carbon farming industry roadmap: Second edition*, p. 8. [Link](#).

ASIC 2022, *How to avoid greenwashing when offering or promoting sustainability-related products*. [Link](#).

Australian Carbon Industry Code of Conduct 2023, *Complying with the code: Guidance for signatories and stakeholders*. [Link](#).

Australian Carbon Industry Code of Conduct 2023, *Becoming a signatory: Guidance for signatories*. [Link](#).

FUTURE METHODS

-Emerging Method Case Studies

Readings:

CMI IFLM Taskforce 2021, *Next steps to unlocking the benefits of the proposed integrated farm management method*. Attached.

CMI IFLM Taskforce 2021, *Blueprint for holistic approach to carbon farming: Active land management & agricultural production (AL-MAP) method*. [Link](#).
