

4TH SINGAPORE CARBON MARKET & INVESTOR FORUM

Partnership Prospectus

Fostering Collaboration, Unlocking Investment

27 August 2026 | Novotel Singapore on Stevens

ABOUT THE FORUM

The Singapore Carbon Market & Investor Forum is Asia-Pacific's premier event bringing together investors, policymakers, project developers, and carbon market leaders to shape the future of carbon markets, unlock climate finance, and accelerate the region's transition to a low-carbon economy.

EVENT SIGNIFICANCE

The 2026 Forum arrives at a pivotal moment for carbon markets in Asia. As compliance markets expand, voluntary markets continue to evolve, and trade measures such as CBAM reshape supply chains across the region, the focus is shifting to implementation, investment and market credibility.

Singapore is central to this transition. The country has signed Implementation Agreements with ten partners under Article 6.2 of the Paris Agreements, with MOUs in place with many more, and its carbon tax has reached S\$45 per tonne, with a clear trajectory towards S\$50-80 by 2030. Corporate commitment grew substantially in 2025, yet capital has not kept pace – creating an urgent need for investor-developer connections and new financial structures.

This is where it converges: the policy-makers shaping the rules, the investors deploying capital, the developers building high-integrity projects, and the service providers enabling the ecosystem. The Forum brings these leaders together for a full day of substantive discussion, commercial engagement, and relationship-building – concluding with a drinks networking reception in the heart of APAC's carbon trading hub.

2026 SINGAPORE CARBON MARKET & INVESTOR FORUM

The 2026 event will be held on 27 August as a one-day conference at Novotel Singapore on Stevens, concluding with a drinks networking reception.

Now in its fourth year, the Forum convenes APAC's leading carbon market professionals, investors, policy-makers, and project developers for a day of high-impact discussion and commercial engagement.

Building on the success of previous Forums, the event provides opportunities for knowledge exchange, commercial interaction, and advancing carbon market integrity and capacity across the region.

Four overarching themes support the sessions, providing a framework for the plenaries, presentations and networking events.

4 Key Themes

1. Geopolitics, Trade & Market Dynamics

How global fragmentation and trade policy are reshaping carbon markets in Asia

- Carbon pricing in a fragmented world order
- CBAM and the new cost of trade
- Competitiveness across global supply chains
- Climate coalitions and emerging carbon alliances
- Implications for carbon markets in Asia

2. Compliance & Voluntary Market Evolutions

How carbon markets are evolving and what this means for demand, integrity and price signals

- Expansion and reform of ETSs across Asia
- Interaction between compliance and voluntary markets
- Corporate claims and the credible use of carbon credits
- Market integrity frameworks and independent assessments
- Pricing dynamics and supply-demand outlook

3. Investment, Finance & Project Development

How capital is being mobilised to scale high-integrity carbon projects

- Offtake agreements and revenue generation
- Blended finance, guarantees, and catalytic capital
- Role of MDBs, DFIs and institutional investors
- Risk management and project bankability
- Investment opportunities across nature-based and removal projects

4. Next-Gen Markets & International Cooperation

How new technologies and international cooperation are shaping future carbon markets

- Carbon removals and next-generation supply
- Digitalisation, AI and market infrastructure
- Article 6 implementation and cooperative approaches
- CORSIA and maritime decarbonisation
- COP31 outlook and regional priorities for APAC

EACH THEME WILL INCLUDE:

Plenary: presentations from key speakers – allowing knowledge sharing of important themes and developments in APAC carbon markets

Panel Discussions: moderated panels featuring leading practitioners – allowing for diverse perspectives and expert debate

Networking and Q&As: networking and Q&A will aim to build connections and foster commercial opportunities across the region

2025 KEY STATISTICS

180 Delegates

12 Partners

54 Speakers

AUDIENCE

The Forum convenes a diverse audience across the APAC carbon market value chain, drawing on CMI's membership of 135 organisations and wider international stakeholder network. Typically, attendees include representatives of government ministries and agencies; global financial institutions and development banks; carbon project developers; carbon service providers, traders, and exchanges; law firms and strategic advisers; MRV and technology companies; rating agencies and registry operators; and emissions-intensive corporate entities pursuing decarbonisation strategies.

In 2025, 52% of attendees held C-Suite or Senior Management positions.

WHY PARTNER WITH CMI?

The Singapore Carbon Market & Investor Forum is an established and highly regarded international forum, now in its fourth year. Official partners receive recognition across all Forum collateral, impactful branding opportunities, program participation, media exposure across the event and CMI's digital channels, and complimentary delegate passes. Partnership provides a unique opportunity to associate your brand with CMI's leading work in APAC carbon markets, climate finance, and market integrity – at an event that brings together the region's most senior decision-makers in one room.

Partnership is limited with packages outlined below.
